SUMMARY

Backend Engineer with over 9 years of experience specializing in high-load web applications, financial systems, and real-time data analytics. Expert in the PHP ecosystem (+ Yii2) and database management (MySQL, MongoDB, Redis). Proven track record in refactoring legacy architectures, optimizing complex algorithms, and designing scalable RESTful APIs. Strong focus on code quality and delivering technical solutions that align with business objectives.

TECHNICAL SKILLS

Languages: PHP (5.6 – 8.x), JavaScript (ES6+), TypeScript, SQL

Frameworks, Runtimes: Yii, Yii2 (Expert), Yii3 (Basic), Node.js (Express)

Databases, Caching: MySQL, MongoDB, Redis

API, Testing: RESTful API design, Swagger, PHPUnit

Developer Tools: Git (GitLab, GitHub, BitBucket), Docker, PHPStorm, VS Code, CI/CD, Linux, Jira, YouTrack, Postman, Heroku, Exact, DO

Frontend (Basic): React, jQuery, AJAX, Bootstrap

EXPERIENCE

Backend Software Engineer

May 2025 – Present

Freelance/Part-time

Remote

Stack: PHP 8.x, Yii2, MySQL, JS, Swagger, React, Linux, GitLab

- Architected and implemented a real-time data recording and analysis system for a sports analytics service
- Engineered the server-side logic for an order management dashboard
- Redesigned the database architecture for sports ground booking systems to improve data consistency and scalability

Backend Software Engineer

Jan 2025 — May 2025

Livemaster — Contract

Remote

Stack: PHP, MySQL, React, Linux, GitLab

- Optimized financial transaction workflows in a C2C marketplace, ensuring high accuracy and security
- Designed and implemented a scalable bonus/loyalty system to increase user engagement

Backend Software Engineer

Jan 2024 — Jan 2025

SportSoft

Remote

Stack: PHP 7.x–8.x, Yii2, MySQL, JS, TS, Redis, React, Linux, AI integration, GitHub

- Developed backend modules for diverse sports-tech solutions, focusing on high-performance data processing
- Refined statistical calculation algorithms, improving the speed and accuracy of complex data reporting
- Performed extensive refactoring and performance optimization of core modules

Backend Software Engineer

Apr 2023 — Jul 2023

Myfin — Contract

Minsk, Belarus

Stack: PHP, Yii, Yii2, MySQL, REST, Linux, GitHub

- Developed new features for a large-scale financial platform with diverse banking functionalities
- Implemented new architectural solutions and conducted rigorous code reviews to ensure high-quality standards
- Modernized legacy components through strategic refactoring

Backend Software Engineer

Apr 2022 — Jan 2023

iContext

Minsk, Belarus

Stack: PHP 8.1, Yii2, Redis, MySQL, REST, Swagger, Linux

- Contributed to a large-scale digital control system by developing new features and implementing scalable architectural patterns
- Optimized system performance through efficient Redis caching and database query tuning

Backend Software Engineer

Nov 2021 — Apr 2022

NDA — Contract

Belarus

Stack: PHP 7.4, JS, MySQL, REST, Linux

- Developed APIs and analytics tools for retrieving and processing data from IoT/electrical devices
- Designed and implemented robust architectural solutions for real-time data processing

Backend Software Engineer

TagFul

Sep 2018 — Sep 2021

Brest, Belarus

Stack: PHP 7.4, Yii2, JS, MySQL, REST, Git

- Developed backend functionality for European auction systems and trading platforms
- Integrated third-party accounting and financial APIs to automate transaction workflows

Backend Software Engineer

SmartexLab

Sep 2017 — Sep 2018

Brest, Belarus

Stack: Node.js, Express, Nest.js, JS, TS, Git

- Contributed to the development of a WebRTC-based browser calling solution

LANGUAGES

English

Belarusian, Russian

B1

Native

EDUCATION

Brest State Technical University

Bachelor's Degree in Automated Information Processing Systems

Brest, Belarus

Jul 2012 – Jul 2017
